Watch the video tutorial to learn how you can use the flashing tool to install ROMs in CWM Recovery. I love this and it works great.. ROMs, mods, unlocking bootloaders becomes trendy and quite easy than earlier.. The CM9 stock recovery is installed.

The present invention relates to a method of analyzing protein crystal samples. More specifically, the present invention relates to the selection and design of compounds suitable for differentiating crystal forms. The determination of protein crystal structures is complicated by the fact that the protein itself consists of protein chains that are non-covalently bound to each other. The chains are folded, or globular, in such a way that the three-dimensional shape of the protein is determined by its backbone structure
