Download list called "ZaptiX Downloads" in the right-hand main menu. You can use this list to find any item you might have previously downloaded and saved in ZaptiX. You can also use this list to reload a previously-saved or partiallydownloaded download. You may have a choice of 10 popular download managers, and the software will try them out for you and add their settings to your new list. If the trial download fails, or you are using a free version of the software, click OK, close the installer and start again. Now, you can tell ZaptiX Downloader to use the settings from one of the 10 download managers by clicking the list in the main menu and selecting the download manager you want to use. ZaptiX Downloader runs both in Windows and in a browser window. If you are using a browser window, you can click the top right corner of the screen and choose "ZaptiX Downloader". It will run from the browser window and show you a list of all the downloads you have previously made in ZaptiX. You can also close the browser window if you are not using it, and still keep ZaptiX Downloader running. You can click the top right corner of the screen, and choose the downloaded item you want to use. When you are done, click "Close". This gets you going, but you will need to learn more about it and do additional setup to make it work perfectly for you. Find information about getting online, getting help with specific problems, accessing the help area, and monitoring your downloads. Getting help If you need help with a problem, view our Help Center. You can also create an email address where we will send you notices of new versions and news about ZaptiX, or about news about the Internet. Support and news If you find a problem or a bug, use the "Browse Bug Reports" option to find out how other people have resolved the problem. You can also use the "Write a News" page to let us know about news about ZaptiX
